

Robotic Pool Cleaners

DOLPHIN SUPREME M4

Recommended for pools up to 12 m (40 ft) in length.
Cleans pool floor, walls and water line.

The Dolphin Supreme M4 is a significant step up in robotic pool cleaner technology based on Maytronics' many years of experience.

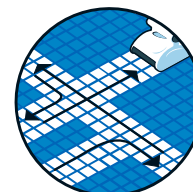

Dolphin Supreme's unique innovative features take all the hard work out of pool cleaning, while providing reliable cleaning results every time.

Dolphin Supreme M4 Features and Benefits:

- Brushes, scrubs, vacuums, and filters the entire pool including the floor, walls and waterline. The new, advanced technology enables optimal scanning and pool coverage in a shorter cycle time.
- Add-on extra brushing system is twice as efficient. The rigorous brushing and scrubbing action reinforces the elimination of algae and bacteria.
- Patented pending top opening filtration compartments for easy and convenient maintenance.
- Patented pending Multi Filtration System (MFS): Ultra fine, Ultra fine disposable, and Spring cleaning.
- One-way water valves prevent the escape of debris and ensure rapid water drainage.
- Adjustable foats allow efficient scanning in different pool sizes.
- Automatic motor protection mechanism.
- Low voltage motor provides minimal energy consumption.
- Automatic shut off at end of each cycle.
- DIY – easy maintenance, at user and local dealer level.
- Suitable for beach entry pools.
- Three year warranty (all parts included).

Dolphin Supreme M4 Specifications:

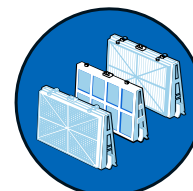

Cycle time	2.5 hours
Cable length	20 m (65 ft)
Filter bag porosity	Ultra fine Micronic filtration
Suction rate	17 m3per hour
Motor unit voltage	24 VDC
Universal power supply	Universal Digital 100-250 V
	IP 54
	Output less than 30 VCD
