

Rely on the quality!

Time for a steel revolution
in your pool!

We present new pool elements of Peraqua-Praher.

Made of plastic and stainless steel AISI 316/V4 resistant to the harmful effects of chlorine. Steel covers have attractive design and are made according to strict production standards. We offer wide range of products such as: skimmers, inlet nozzles, drains or wall culverts.

The elements are designed for liner and concrete pools.

Skimmer Ocean Deluxe

front frame and top cover made of stainless steel AISI 316/V4, output with external thread 2", flow 8 m³/h, assembly on internal threads

code: 21500

Skimmer Ocean PT

front frame and top cover made of stainless steel AISI 316/V4, output with external thread 2", flow 8 m³/h, assembly on screws

Skimmer Ocean Deluxe, wide, 25 cm

front frame and top cover made of stainless steel AISI 316/V4, output with external thread 2", flow 8 m³/h, assembly on internal threads

code: 21502

Skimmer Ocean PT, wide, 25 cm

front frame and top cover made of stainless steel AISI 316/V4, output with external thread 2", flow 8 m³/h, assembly on screws

Bottom drain Deluxe

cove made of stainless steel AISI 316/V4, flow 15 m³/h, output with internal thread 2"

code: 21504

Bottom drain PT

cove made of stainless steel AISI 316/V4, flow 15 m³/h, output with internal thread 2"

Inlet nozzle Deluxe

for liner pools, cover made of stainless steel AISI 316/V4, max. flow 5 m³/h

code: 21510

Inlet nozzle PT

for concrete pools, cover made of stainless steel AISI 316/V4, max. flow 5 m³/h

Wall culvert Deluxe

for liner pools, length 30 cm, internal thread 2" at front, internal glued connection 50 mm at back or external thread 2"

code: 21506+21508

Wall culvert PT

for concrete pools, length 30 cm, internal thread 2" at front, internal glued connection 50 mm at back or external thread 2"
